

ADVOCACY TEMPLATES:
PROPOSED POLICY ON REFUGEE RESETTLEMENT IN THE U.S.
**(Note: these are simply suggested talking points in writing to, e-mailing, or
calling your legislators)**

Lowering refugee admissions for FY 2020 to 18,000 will be tragic, clearly inhumane, and unnecessary. Please do all you can to stop this proposed un-American policy.

Lowering refugee admissions for FY 2020 to 18,000 will be tragic, clearly inhumane, and unnecessary. It defies our global leadership role, our most basic human compassion, and our deepest moral sense. Please do all you can to stop this proposed un-American policy.

Lowering refugee admissions for FY 2020 to 18,000 will be tragic, clearly inhumane, and unnecessary. The U.S. must recognize its own responsibility in creating this refugee crisis, the greatest in history, through our own environmental, military, and economic policies. Please do all you can to stop this proposed un-American policy.

Lowering refugee admissions for FY 2020 to 18,000 will be tragic, clearly inhumane, and unnecessary. We have the highest level of displaced persons (over 71 million) in history, and our President is responding by reducing the FY 2020 refugee cap to its lowest number in our history. Please do all you can to stop this proposed un-American policy.

Allowing states and municipalities to reject refugee resettlement in FY 2020 is an abomination of what is meant by "states' rights". Please do all you can to stop this proposed anti-American policy.

Allowing states and municipalities to reject refugee resettlement in FY 2020 is a clearly political stratagem, designed to placate POTUS' base at the tragic expense of innocent, traumatized refugees, in desperate need of safe haven. It also divides the country even more. Please do all you can to stop this proposed anti-American policy.
